

# WELCOME TO PRACTICAL TUTORIALS ON HEMODYNAMIC BALANCE IN ACUTE AND ADVANCED HEART FAILURE: I.V. VASO-ACTIVE OPTIONS

**SUNDAY May 26 and MONDAY May 27**  
**09:15–10:15**      Practical Tutorials 1

## The Acute Heart Failure settings

- 9:15      Guidelines and definition of AHF, therapeutic options  
          // José Garcia-Pinilla (Malaga, Spain)
- 9:35      Role of hemodynamic active drugs, differential effects of  
          drug families // Dirk von Lewinski (Graz, Austria)
- 9:55      Clinical practice in AHF with different etiologies  
          // John Parissis (Athens, Greece)

**SUNDAY May 26 and MONDAY May 27**  
**13:15–14:15**      Practical Tutorials 1

## Differential renal effects of vasoactive drugs

- 13:15      Cardio-renal syndrome // Endre Zima (Budapest, Hungary)
- 13:35      Differential renal effects of levosimendan on renal  
          function in AHF and restrictive cardiomyopathy  
          // Alexander Reinecke (Kiel, Germany)
- 13:55      Clinical practice // Kristjan Karason (Gothenburg, Sweden)

**SUNDAY May 26 and MONDAY May 27**  
**11:15–12:15**      Practical Tutorials 1

## The Advanced Heart Failure settings

- 11:15      Physiological effects of vaso-active drugs in AdHF?  
          // Piergiuseppe Agostoni (Milan, Italy)
- 11:35      Guidelines and definition of AdHF, therapeutic options  
          // Patrick Yerly (Assens, Switzerland)
- 11:55      When does acute decompensation start?  
          // Gerhard Pözl (Innsbruck, Austria)

**SUNDAY May 26 and MONDAY May 27**  
**15:15–16:15**      Practical Tutorials 1

## AHF or CS as a consequence of Acute Coronary Syndrome

- 15:15      Therapeutic options and clinical practice for ACS-induced AHF  
          // Alejandro Recio Mayoral (Sevilla, Spain)
- 15:35      Therapeutic options and clinical practice for ACS-induced  
          cardiogenic shock // Veli-Pekka Harjola (Helsinki, Finland)
- 15:55      Clinical practice  
          // Dimitrios Farmakis (Athens, Greece)

**Refreshments will be served at each session.**

**The same program with same timings will  
be held both on Sunday and Monday.**
